Shaping the casting
industry since 1946

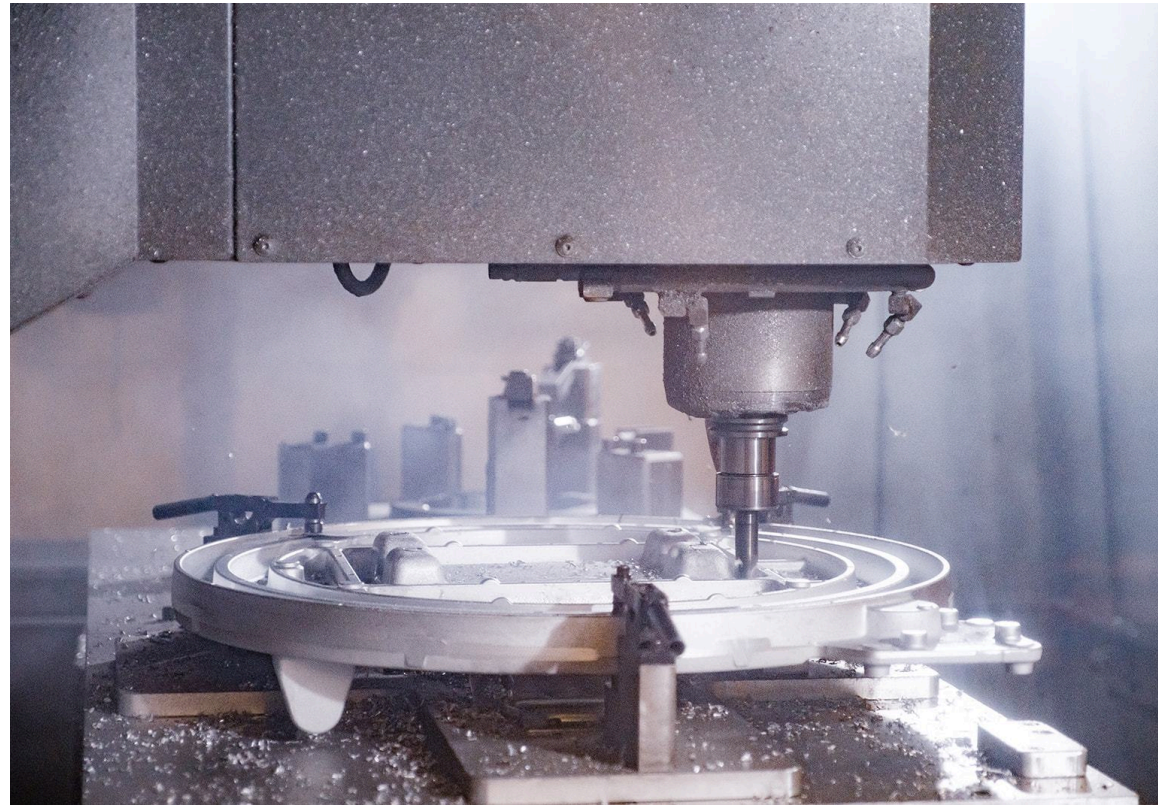

ALUMINUM CASTING SOLUTIONS

**STRUGGLING WITH
COSTLY DELAYS OR
INCONSISTENT
QUALITY?**

Our focus is on delivering critical aluminum casting solutions with expert knowledge, decades of hands-on experience, and cutting-edge technology - saving you time and resources.

Ramsden is your trusted partner for full-service aluminum casting, proudly supporting OEMs, machine shops, and manufacturers across North America. With nearly 80 years of experience and a proven track record of solving casting challenges, we bring unmatched technical expertise to every project.

Customers choose our team just as much for our communication as for the quality of our work, and as a third generation family business, we take a lot of pride in that. Our true strength is in our team, many of whom started with Ramsden and have stayed ever since. We work closely with you at every stage of the design and casting process because we know firsthand that your success is our success.

**WHAT SETS
RAMSDEN APART**

There’s a reason why Ramsden’s customers think of us as a trusted partner, and have for decades. We’ve built our industry reputation on our commitment to craftsmanship, but our customers keep coming back because we go above and beyond.

Customers trust us because we ensure that they’re engaged with every step of our process. They’re comfortable listening to our ideas and innovations, and confident that we’re as committed to their success as they are. The end result isn’t just a great product, but a relationship that we hope to continue for many years to come.

CASTING PROCESSES & CAPABILITIES

We specialize in the following aluminum casting processes, tailored to your specific needs:

Low-pressure casting

Permanent mold casting

Semi-permanent mold casting

Tilt-pour permanent mold casting

Our capabilities range from:

Parts: From 1 lb (0.5 kg) to 300 lbs (136 kg), using primarily 300-series aluminum alloys.

Production Volumes: Up to 100,000 pieces annually.

In-House Tooling: Reduces lead times by up to 30%.

Advanced Simulation Expertise: State-of-the-art tools to optimize precision and minimize errors.

Comprehensive Testing and Validation: X-ray, 3D scanning, and material property analysis.

Seamless Advanced Product Quality Planning (APQP) Integration: Ensures consistency and transparency with milestone tracking at every stage.

WORKING WITH RAMSDEN

You can expect a seamless onboarding experience, designed to align with your needs and timelines:

**HAVE AN
ALUMINIUM
CASTING PROJECT?**

We're committed to delivering precision,
quality, and efficiency every step of the way.

Submit your project details to receive a quote:

[🔗 ramsden.ca/request-a-quote](https://www.ramsden.ca/request-a-quote)

We'll follow up within a business day, and schedule a follow-up
conversation if needed. A quote will be provided within 10 business
days.
